---

Dear Randall Carter Family,

This year, as discussed at back-to school night, one of our district and school goals will be to implement the No Place for Hate program from the Anti-Defamation League. We hope this program will add to our already established efforts in providing students character education, anti-bullying programs, and the Cardinal Rules program.

We will be launching No Place For Hate (NPFH) next week with events like mix-it up lunches, buddy bench lessons, Week of Respect Activities, the classroom signing of NPFH Promise, and through classroom discussions and school announcements.

With this new goal, we seek to expand our students knowledge of other cultures, celebrate our diversity as a school community, decrease bias that may cause student disagreements or HIB incidents, and to promote better understanding of one another.

Randall Carter demographic is expanding and we have more students than ever that need to feel accepted and supported. We are truly a melting pot and we need to celebrate our diversity and all of the cultures that come together to make our school great!

Thank you for your support,

Mrs. Francesca Russo  
School Counselor
